

Beyond expectation!

Aristo® 1000 AC/DC SAW

Inverter power source built on the latest technology and with the most energy saving solutions that are available today. The machine has functions like:

- Bead Profile Modelling™ - for a tailor made penetration profile
- "On the fly" function - from root to cap without any interruptions
- Cable Boost™ - saves energy and allows the use of long welding cables without compromising the weld result
- Uninterrupted welding production - all cables are connected behind a door, well protected from damage.

STRENGTH THROUGH COOPERATION
